RE: Paint and Body material rate increase to take effect March 31

Dear Commercial Collision repair facilities,

As you're aware, we committed to reviewing paint and body material cost allowances annually. I'm writing to let you know that effective March 31, 2025, we will be increasing rates for paint and body materials for Commercial Collision Repair Program Participants, Independent and Dealer Paint and Body Repair facilities.

The new rates are as follows:

Item	Current rate	New Rate (as of March 31)
Paint material (single-stage)	\$55.94	\$57.84
Body material (two-stage)	\$91.32	\$94.42
Body material	\$8.64	\$8.74

The new rates for Commercial Collision Paint and Body Repair facilities will apply to:

- vehicle repairs in progress with a car-in date of January 1, 2025, or after. Repair facilities will need to re-apply the estimate profile to receive the new rates for vehicle repairs in progress.
- new estimates written March 31, 2025, or later. For estimates written March 31, 2025, or after, selecting the applicable estimate profile will apply the new rates to the estimate.

In determining the new rates, we worked with paint suppliers to collect data on cost increases and used information provided by industry suppliers and calculated the actual year over year cost changes of the materials utilized. We'd also like to thank Color Compass Corporation and Horizon Paint and Auto Body Supplies for their participation.

If you have any questions, please don't hesitate to reach out to me directly at: kevin.walsh@icbc.com, or Jonathon Stewart at: jonathon.stewart@icbc.com.

Sincerely,

Kevin Walsh
Manager, MD Program
